

Welcome to Sky Flight Training:

Getting your wings is our priority at Sky Flight Training:

1 We offer International students the opportunity to conduct their flight training in Cape Town South Africa.

The course syllabus allows you to fly and study full time for a period of 13 months. You will be staying at two locations.

- **Cape Town &**
- **Worcester Town**

2 On completion of your Commercial pilots licence you have the choice to further your studies at Sky and become a qualified flight instructor with the option to work 20 hours per week at the academy to gain flight experience.

Sky Flight Academy:

Based in Somerset West, 25 minutes from Cape Town International Airport

The academy houses a new advanced full motion Garmin G1000 flight simulator for single and multi-engine pilot training from first flight to Commercial pilot.

Digital climate-controlled classroom, with 24-hour security allowing students to fly and study at night.

The following are within walking distance from Sky Campus:

- **Take-out food facilities.**
- **Tea and Coffee shop.**
- **Movie theatres, food courts and 200 convenience stores to visit in off time.**

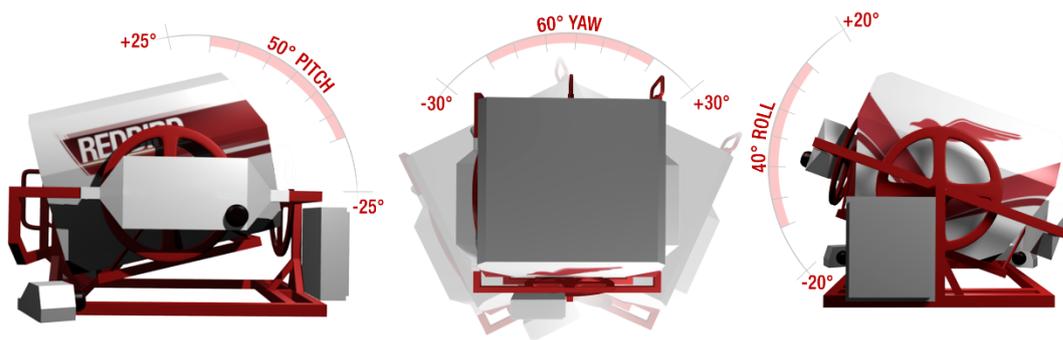

Sky full motion flight simulators:

Do we need motion?

Yes, aircraft and flight are foreign concepts to humans. It is beneficial to have exposure to motion.

We are by nature earth bound and all the tools needed to learn a new skill are available to you.

The flight simulator is dually certified to do single and multi-engine flight training.

- 1) Cessna single engine with Garmin G1000 Avionics.**
- 2) Piper Seneca twin engine suite with G1000 Avionics.**

Garmin G1000 is the most advanced system on the market in 2018 and is installed in all new generation small aircraft.

It is an integrated flight instrument system typically composed of two display units, one serving as a PFD primary flight display, and one as a MFD multi-function display.

You will be exposed to the traditional flight instruments, during your practical flight phase, called the six pack instruments.

The South African Civil Aviation Authority study syllabus covers traditional and advanced flight instruments.

In addition to normal required flight training on the simulator, you will be able to book additional training and conduct your yearly instrument flight renewals on the flight simulator.

Sky uses the GIFT flight training program for all the students.

G.I.F.T. Guided Independent Flight Training for the Student Pilot, is a simulator-based manoeuvre training supplement, designed to help students learn, practice, and get feedback on every manoeuvre required for their pilot's license.

Each GIFT lesson focuses on a specific flight manoeuvre or skill required to earn a Private Pilot licence and includes:

- **A video and written pre-flight briefing**
- **A simulator mission with an approved flight instructor that provides real-time coaching and corrections on your performance**
- **A post-flight de-brief with objective scoring based on International flight Certification Standards in Europe and the USA**
- **In-depth post-flight review and trend tracking by uploading your lesson history to International flight data bank.**
- **Print out and score of your GIFT training.**
- **GIFT exercises are graded on a competency level. You can advance to the next exercise once you've reached competency.**
- **There are 33 exercises to complete.**

How much does the course cost?

All-inclusive price of \$49 000.00 up to December 2018

What is included in price?

- **Food allowance, you will be issued with R2000,00 per month to purchase and cook your own food.**
- **Transport all required transfers for flight training and pick up at Cape Town International Airport.**
- **Accommodation is provided in secure location with two sets of bedding. Weekly cleaning service.**
- **The accommodation is equipped with Gas cooker, automatic washing machine, dryer and fridge.**
- **Internet at housing and Cape Town Campus.**
- **PPE personal protection equipment.**
- **Flight kit, headsets, Private pilot study material and Commercial pilot study material.**
- **Exam fees for all subjects. Kindly note that allowance is made for one exam per subject only. To re write an exam that was not passed, will be at the student's personal cost.**
- **Flight medical examination and certificate.**
- **Radio licence course and certificate.**
- **All aircraft and simulator instruction and instructor fees.**
- **Airside induction course.**
- **Mountain flight course.**

The course cost is calculated at current exchange rate to the USD and South African Rand.

How long does it take?

Students that follow our full-time syllabus can achieve their single engine commercial pilots' licence in 13 months.

What's not included in the quote?

International return flight ticket to and from Cape Town South Africa.

Emirates Airline is the best and most cost-effective option as they fly daily into Cape Town.

International medical insurance that is valid for duration of Student visa.

Yellow fever vaccination and card.

Application fee for student visa \$300.00.

All personal transportation requirements.

Personal medical bills.

Personal phone calls.

Printing.

Personal toiletries.

Washing and laundry services.

Day to day cleaning of personal space and shared space in accommodation.

Multi Engine flight rating. Can be quoted on request.

Instructors flight rating. Can be quoted on request.

English language proficiency classes. "If your English is not on an International level you will need to join a class."

Extra mathematics and science classes. "It is not a requirement to have science and mathematics at school graduation but will be an advantage to you"

Flight school questions:

Questions to ask a Flight School

Q1. How many airplanes do you have available for flight training?

The flight school practical flying airport is situated at Worcester airfield and have 5 aircraft to train on.

Q2. How are your airplanes maintained?

All aircraft are maintained by an approved maintenance organisation based at Stellenbosch.

Q3. How many flight instructors do you have and how many are full time instructors?

Full time instructors 5 and part time 3.

Q4. What is the foundation of ground school?

You will receive your first ground school class the second day after arrival.

The course is about airside safety and flight operations.

Q5. Do you require the use of a syllabus?

Yes, you will receive the full syllabus on arrival and during induction.

All schedules documents and notifications can be loaded on your personal an I-pad or tablet.

Students will be notified on schedule using Whats App.

Students are encouraged to bring along their personal I pad or Android Tablet for loading flight training programs, exam exercise questions and flight planning software.

Questions you should ask a Flight Instructor

Q6. Why did you become a flight instructor?

See if the CFI “Chief flying instructor” has a genuine interest in teaching. A good pilot doesn’t always make a good teacher.

Q7. How long have you been instructing?

It takes some time to develop an effective teaching style. The more experience, the better.

Q8. What is your teaching style?

Some instructors are more rigid than others. If you like figuring things out on your own, try to find an instructor that will allow you to do this safely.

Q9. Do you give more compliments than critiques or the other way around?

Most people learn faster with the use of positive reinforcement, but also require solid, constructive feedback – try to find a good balance.

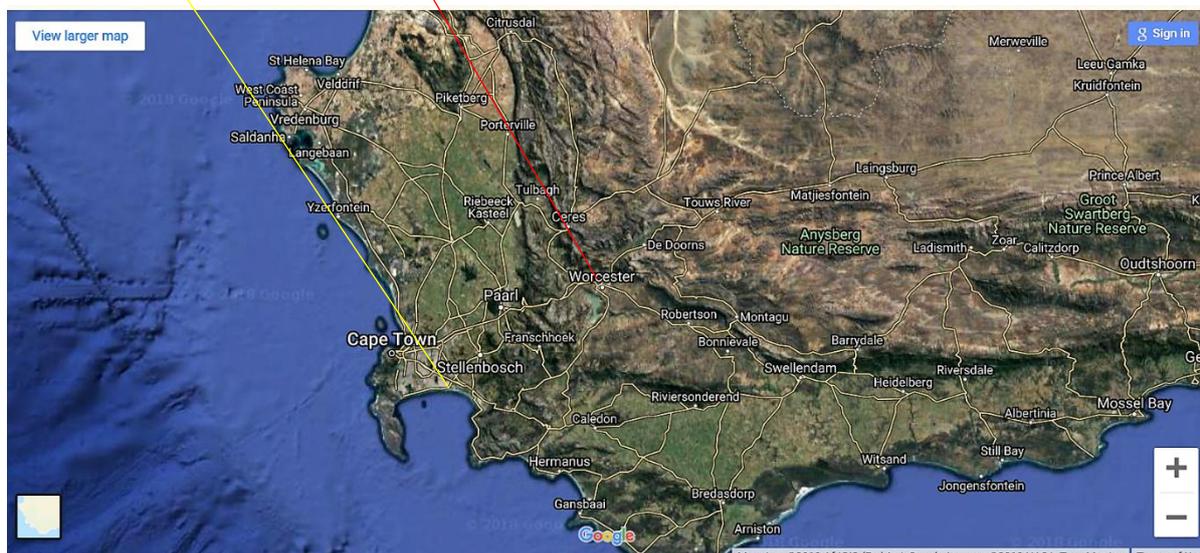

Q10. I've heard people talk about “stalling” an airplane. Can you tell me what that means?

The explanation should be easy to follow and to the point. Remember you are learning a new skill.

Where do we do practical flight training?

Cape Town Campus for ground school and simulator flying.

Practical flying base is Worcester Airport.

The airport offers a quiet and relaxed flying environment for you to learn to fly.

The airport has 4 landing strips to allow you to land in various wind directions and conditions.

The town of Worcester is 25 minutes flight time from Cape Town.

You will also have the opportunity to fly to Cape Town International airport during the advance stage of the syllabus during night flying and instrument training.

Security is good Worcester and accommodation is provided on same basis as Cape Town.

Single room occupancy is charged extra per student. Two students (same gender) sharing a room is standard.

The aircraft fleet we use for practical private pilot training at Worcester airfield.

Things to do:

- **When in Cape Town academy you can visit the beachfront and a wide variety of shopping malls within walking distance from accommodation.**
- **There are several golf courses and a driving range across the road from accommodation.**
- **Mountain bike cycling routes**
- **Various farms producing fresh organic produce**
- **Art galleries and theatre**
- **Shark cage diving**
- **Acrobranch adventure trails**
- **Mountain and nature hiking trails**
- **Fitness clubs**
- **Restaurants**
- **Medical facilities**

Living Quarters Cape Town:

Lifestyle Security Estate near Academy with Clubhouse & Gym

Restaurant & fully equipped apartments to cook your choice of meals.

Thank you for your interest in Sky Flight Training.

On making your decision to enrol with Sky, you can look forward to a fresh approach to safety and scenario-based training.

Utilize flight training area, advanced full motion flight simulator systems, GIFT and good flight conditions to the benefit of the student.

You are investing in your future as an airline, corporate or commercial pilot.

Warm regards,

Capt. Johan Griesel
